

Signs of DEBT RELIEF SCAMS

Avoid debt relief services that:

- Guarantee to settle all your debts or provide fast loan forgiveness
- Try to collect fees from you before it settles any of your debts or enters you into a debt management plan
- Try to enroll you in a program without first reviewing your financial situation
- Advertise a “new government program”
- Tell you to stop communicating with your creditors but doesn’t explain the serious consequences
- Tell you it can stop all debt collection lawsuits
